

Haunting Me

Matt & Kim

My arms are sore
Home acting bored
I shut my eyes
Say it's alright

Can you see what is haunting me?
I try to walk but we're scared to find
You know me well and what's haunting me
Now we can be on time

I mean
Things were not bad times that we had, times that we had
McCarren Park, home after dark, skate down Drake's Ave
But things got tough, didn't sleep enough, didn't sleep enough
I needed you to be my breakthrough, not just show up

Can you see what is haunting me?
I try to walk but we're scared to find
You know me well and what's haunting me
Now we can be on time

You know, you know me
You know, you know me
You know, you know me

Can you see what is haunting me?
I try to walk but we're scared to find
You know me well and what's haunting me
Now we can be on time
