

# Let's Go

Matt & Kim

I was up in my head  
for everything I said  
quote a million words  
they're all made with lead

I bought a megaphone  
to use inside your home  
forget the batteries  
but thats the old me

shouting out  
of my windows  
rolled down  
[because] I don't care anymore  
said I don't care

Let's go (x4)

---

Let's go (x4)

Standing on the top  
of a parking lot  
I gave it all I had  
show me what you got  
there's some things I found  
that make so much sound

All these words  
I don't need them now

shouting out  
of my windows  
rolled down  
[because] I don't care anymore  
said I don't care

Let's go (x4)

--

[Hey, Hey, Hey]

--

Let's go (x4)

Say what you wanna say  
Make it mean everything  
Oh, Say what you wanna say  
Make it mean everything

Say what you wanna say  
Make it mean everything  
Oh, Say what you wanna say

Let 's go (x4)

[Hey, Hey, Hey]

Let 's go (x4)

Say what you wanna say  
Make it mean everything  
Oh, Say what you wanna say  
Make it mean everything

Say what you wanna say  
Make it mean everything  
Oh, Say what you wanna say

Let 's go (x4)
