

Not Alone

Matt & Kim

Hey there
You know
We're not in this alone
Hey there
You know
We're not in this alone
Hey there
You know
We're not
Alone
Hey there
You know
We're not in this alone

Thrown deep
Six feet
Thought that I was all alone
You came
To me
Pulled me out and brought me home
Thrown deep
Too steep
Caught up in an undertow
You came
To me
Pulled me out and brought me home

Through the dust and dirt
See what we're worth
Through the pain and hate
Here comes brighter days
Forgot many times
True friends hard to find
Together we're strong
And sing to this song
And sing to this song

Hey there
You know
We're not in this alone
Hey there
You know
We're not in this alone
Hey there
You know
We're not
Alone
Hey there
You know
We're not in this alone

I don't know where I been
But I know I wanna stay
And I'm going on today
I don't know where I been
But with you I wanna stay
And I know we'll be OK

Through the dust and dirt
See what we're worth
Through the pain and hate
Here comes brighter days
Forgot many times
True friends hard to find
Together we're strong
And sing to this song

I don't know where I been
But I know I wanna stay
And I'm going on today
I don't know where I been
But with you I wanna stay
And I know we'll be OK
And I know we'll be OK
