

Above

Matt Maeson

It must've been a blessing from above
It must've been a blessing from above
It must've been a blessing from above

Well, I don't need it, I don't need it, I don't need it
Give it up and I'm tenfold defeated, my man
Bad soil in the palm of my hand
Bad soil in the palm trees
Star-studded sidewalks
Now I kick it with the pythons
Good tree and some bad thoughts
Interference when I talk to God
Shake it out with some anemic love
But I don't need no love
Interference when I stop and pause
Shake it out with some egregious love
But I don't need no love
I think it's all because

I block out every message from above
I'm walkin' through the muck and the mud
I move all the goddamn same
I need another message from above
I need another message from above (Above, above, ooh)

It must've been a blessing from above (Above, above, ooh)
It must've been a blessing from above (Above, above, ooh)
It must've been a blessing from above (Above, above, ooh)

Tainted love, at this point can't call it makin' love
When I was young, man, what a saint I was
When she could break my heart
And now I lay with and betray my gut
I think she know 'cause she be copin' when she drank thy blood
Now every time I leave I know she thinkin' the worst, and
Conversations 'tween us always feel like a versus
You expect love and you don't even deserve it
Girl, Jesus knew hoes if you was readin' the verses
Try to use my sense of humor, it ain't makin' it hurt less
I make her feel worthless, and I'm feelin' that too
Mind reelin' and pinin' for when the feeling was new
So in an effort to heal it, I kneel and give it to you

Yeah
Can we liven it, a one time? (One time)
Really vibin' it, a one time (One time)
Really thuggin' it for one time (One time)
Know they lovin' it, a one time (One time)
One time (One time), one time (One time)
Really vibin' it for one time
But we do not fuck with one time (No, no, no)
No, we do not fuck with one time (No, no)

It must've been a blessing from above (Yeah, keep it going, yeah, yeah)
It must've been a blessing from above (Go crazy, yeah, yeah, oh)
It must've been a blessing from above (Above, above, go like this, ayy)

East Coast, West Coast travels
Somehow we end up here
Here, here, here (Ayy)
I don't even understand the stars
Even if the land ain't ours
We're still here (Yeah)
Bizarre
Must've been a blessing from above, yeah, yeah
Must've been a blessing from above, oh, above
