

Feel Good

Matt Maeson

I found a way I could catch that feel good
Skies been turnin', fires been burnin' since '93
Wait just a moment, I can drop my values
Skies been turnin', fires been burnin' since 17

Travelling so far to get there
All just to be here again
All just to see what they saw back then

I think it's time that you call back home, son
Fires still scorching, you've been scornin'
You look abused
Did you get out all of that angry passion?
Or is it still formin'? Has it started to torture you?
Travelling so far to get there
All just to be here again
All just to see what they saw back then

Well, you could put it all on me
Yeah, you could put it all on me
Well you could put it all on me

I found a way I could catch that feel good
Skies been turnin', fires been burnin' since '93
