

The Hearse

Matt Maeson

I am the man we both couldn't stand
I can't wash off the dirt from my hands
What was it like to feel in love
What was it like to feel in love
I can't scrub off the black from my lungs
I can't wipe off the taste from my tongue
What was it like to feel in love
What was it like to feel in love
I can't scrub off the black from my lungs
I can't wipe off the taste from my tongue
What was it like to feel in love
What was it like to feel in love

I will never go backwards
I will never be free
I will never run faster
When you sink down to me
I will never go backwards
I will never be seen
In the wake of disaster
Will you sink down at me

I am the house that's built upon sand
I am the thought that you couldn't plan
What was it like to feel in love
What was it like to feel in love
I'm the escape to something that's worse
I am the shadow driving the hearse
What was it like to feel in love
What was it like to feel in love
I'm the escape to something that's worse
I am the shadow driving the hearse
What was it like to feel in love
What was it like to feel

I will never go backwards
I will never be free
I will never run faster
When you sink down to me
I will never go backwards
I will never be seen
In the wake of disaster
Will you sink down at me yeah
Will you sink down at me
Will you sink down at me yeah

I will never go backwards
I will never be free
I will never run faster
When you sink down to me
I will never go backwards
I will never be seen
In the wake of disaster
Will you sink down at me

I am the house that's built upon sand
I am the thought that you couldn't plan

What was it like to feel in love
What was it like to feel in love
I'm the escape to something that's worse
I am the shadow driving the hearse
What was it like to feel in love
What was it like to feel in love
