

I'm on a riptide, I'm on a tightrope
I've got a hang noose caressing my throat
I think my demons are feeding my soul
If I don't hold tight, won't have to let go
I saw the blood moon, I bought what he sold
It was a cancer, it made me so old

Hope you know my head's still loading
I'll clean up when they all notice
I know what it takes to lose a
Low down, burn out, no good USERx

Oh wait no, seen my lifetime go
Seen my lifetime switch, hold my head and I'm sick
I just be alone, I got devils in my dome
I can't see 'em but I know, call me, they call me
Oh wait no, seen my lifetime go
Seen my lifetime switch, hold my head and I'm sick
I just be alone, I got devils in my dome
I can't see 'em but I know, call me, they call me

Hope you know my head's still loading
I'll clean up when they all notice
I know what it takes to lose a
Low down, burn out, no good USERx

Hope you know my head's still loading
