

# Jupiter

Matt Maltese

In every dream I have you're in the car  
You're not with him no more, yes it's just us  
In every dream I have you're at the bar  
Drinking White Russians with me, it's just us

I need you like a fire needs a log  
Jupiter couldn't keep me from you  
Oh I'm yours  
I want you like a dog wants a dog  
Jupiter couldn't keep me from you  
Oh I'm yours

You say hello and I'm back to the start  
I wanna be the screen you always touch  
And I'd even be an ulcer in your mouth  
Just to be close to you, I'm just so far

I need you like a fire needs a log  
Jupiter couldn't keep me from you  
Oh I'm yours  
I want you like a dog wants a dog  
Jupiter couldn't keep me from you  
Oh I'm yours

I need like a shore needs a rock  
Jupiter couldn't keep me from you  
Oh I'm yours  
I want you like a dove wants a dove  
Jupiter couldn't keep me from you  
Oh I'm yours
