Jupiter

Matt Maltese

In every dream I have you're in the car You're not with him no more, yes it's just us In every dream I have you're at the bar Drinking White Russians with me, it's just us

I need you like a fire needs a log Jupiter couldn't keep me from you Oh I'm yours I want you like a dog wants a dog Jupiter couldn't keep me from you Oh I'm yours

You say hello and I'm back to the start I wanna be the screen you always touch And I'd even be an ulcer in your mouth Just to be close to you, I'm just so far

I need you like a fire needs a log Jupiter couldn't keep me from you Oh I'm yours I want you like a dog wants a dog Jupiter couldn't keep me from you Oh I'm yours

I need like a shore needs a rock Jupiter couldn't keep me from you Oh I'm yours I want you like a dove wants a dove Jupiter couldn't keep me from you Oh I'm yours
