

Tall Buildings

Matt Maltese

I'm not being funny
I just wanna make you happy
But it don't come easy as that
Don't come easy as that

You dislike the city
And you think it's gonna kill me
And I don't disagree with that
Don't disagree with that

Tall buildings, blowing in the deadly breeze
I'm asking would you like to breathe with me?

Welcome to an island where a person
Wants a person
On a platter with eggs and ham

And I am not yet dead inside and
That's because you are alive
I'm just gonna say it once
All we need is

Tall buildings, blowing in the deadly breeze
I'm asking would you like to breathe with me?
