

## Charlie Andrews

Matt Mays

April 10th, rainy as hell  
I saw you sitting sad by the Ace Hotel  
Hello my name is Charlie  
I'd like to know you well

You seem distant, torn apart  
Appeared that you had something wrong with your heart  
I will rescue you, if you will rescue me...please

Maybe you could use a helping hand  
To kill the loneliness I understand  
I know that we just met  
But I want to see you again

There's something happening that we're tapping into here  
We've both been alone and we're crackling with fear  
I will rescue you, if you will rescue me...please

Maybe you could use a helping hand  
To kill the loneliness I understand  
I know that we just met  
But I want to see you again

I will try  
If you try
