

Heroine

Matt Mays

You are the heroine
You'll save the day
You are the heroine
You'll save the day
From sundown to sunrise
With a tear in your eye
And the trouble that I'm in
You are the heroine
You are the medicine
You're a midnight girl
You are the medicine
You're a midnight girl
With white lies, and black skies
And a tear in your eye
And that trouble that I'm in
You are the heroine
