

# Moondog Matinee

**Matt Mays**

Roll it down, let me out  
Let me feel what it's all about  
Get my face back in the sun  
Return to smile at everyone

Cause it seems like so long  
Since I felt like I could belong  
And I love how we know just exactly what each other are always  
thinking of

Roll it down, let me out  
So my senses can twist and shout  
Just to know that you are there  
With a hand back in my hair  
Oh it seems like so long since we both could do no wrong  
And I love how we know just exactly what each other are always  
thinking of

Freer than a bird  
Out on top of it all

Roll it down, turn it up  
This is my jam, 21st Century Man  
See the stars lit by the sun  
Returning a smile at everyone  
Cause it seems like so long since together we sang along  
And I love how we know just exactly what each other are always  
thinking of
