

## And You Smiled

Matt Monro

And you smiled,

I thought that I had the world on the end of a string  
I thought that I was a millionaire  
Free as the dawn and then came the morning  
I turned and I saw you there  
And you smiled and you smiled  
With laughter in your eyes  
And you smiled and you smiled  
And I was captured  
Don't you know?  
I'd like to stay  
Now I've got something worth talking about  
And you smiled and you smiled  
And I was captured  
And you smiled and you smiled  
I was a fool not to see before  
My life was empty until your love showed me  
The things I've been looking for  
And you smiled and you smiled  
With; laughter in your eyes the world seemed to fade away

Girl I'm so crazy about you  
I know I can't live without you

Once I would run when somebody said wouldn't I like to settle down?  
I didn't care now I'm up in the air with my head really in the clouds

And you smiled and you smiled  
With laughter in your eyes and the world seemed to fade away

And you smiled and I was captured, don't you know

And you smiled and you smiled  
With laughter in your eyes and the world seemed to fade away

And you smiled and you smiled and I was captured  
Don't you know?  
Don't you know?  
I'd like to stay
