

How Do You Do

Matt Monro

How do you do its good to see you How do you do I'm glad I'm here
Of all the places that I've been to I like the way things are
right here

How do you do do you remember When we were kids those good old
days With chalk we used to scrawl Our names upon the wall What
happened to the friends we knew I'm longing to see them all

Give me my pipe and my slippers Go tell the gang I'm here to stay
I'll be at home tonight Shaking hands till morning light Say
ing a how do you do to you and you A big how do you do to you

How do you do its great to see you How do you do I'm so glad I'm
here Of all the places that I've been to

I like the way things are right here

Give me my pipe, give me my slippers

Go tell the gang I'm here to stay I'll be at home tonight Shaking
hands until it's light Saying how do you do to you and you A
big how do you do to you

A big how do you do to you

A big how do you do to you
