

## Moment To Moment

**Matt Monro**

From moment to moment  
Every moment that I live  
I live for every moment with you

To see you  
To touch you  
To imagine this will be  
The moment when a dream comes true

Just an ordinary day becomes adventure

Such sweet adventure  
I never knew

And life will be rainbows  
As I learn the secret of  
The miracle that love can do  
From moment to moment with you
