

These Years

Matt Monro

These years are the good years
They'll be good years to remember
It's our time in the spotlight
Time to taste life, time to live our dreams

Yes, these years are the good years
And when some day they're behind us
How lovely to remember

Each of these years we're spending now
When the good years are behind us
How lovely to remember each of these years

We're spending now
Yes, the good years we're spending now
