

# When Love Comes Along

**Matt Monro**

Now that you're here with me  
Oh, Winter's come and gone  
And now every single tree  
Has leaves and flowers on

There isn't anything as wonderful as Spring  
When love comes along

Love gives me all of you  
And fills my heart with song  
If you feel that way too  
Than nothing can go wrong

We've got each other and the world's a wonderland  
When love comes along

Love joins your heart to mine  
We're one from this day on  
Love has us lost in time  
Amid the passing throng

Fools say it can't be done but two become as one  
When love comes  
Along
