

When Love Comes Along

Matt Monro

Now that you're here with me
Oh, Winter's come and gone
And now every single tree
Has leaves and flowers on

There isn't anything as wonderful as Spring
When love comes along

Love gives me all of you
And fills my heart with song
If you feel that way too
Than nothing can go wrong

We've got each other and the world's a wonderland
When love comes along

Love joins your heart to mine
We're one from this day on
Love has us lost in time
Amid the passing throng

Fools say it can't be done but two become as one
When love comes
Along
