

## Best Drugs

Matt Nathanson

I've been sober  
Feel like I've been sober all my life  
I tread water  
And I hold on to things too tight, too tight

Then you come on just like the best drugs, baby  
You take over like the best drugs, baby

I love it, I can get so high on you  
Tell them they can meet me on the moon  
Pull me thru just like the best drugs, baby  
Felling like I'm not the only one  
Feeling like I'm plugged in to the sun  
You come on just like the best drugs, baby

I hear music  
Feels like I'm swimming in the sea, in the sea  
Just sweet soul music  
And it just washes over me  
It's all the faith I need

You come on just like the best drugs, baby  
You take over like the best drugs, baby

I love it, I can get so high on you  
Tell them they can meet me on the moon  
Pull me thru just like the best drugs, baby  
Felling like I'm not the only one  
Feeling like I'm plugged in to the sun  
You come on just like the best drugs, baby

I can see the beauty in the mess and imperfections  
When you're running through me I get pulled in all directions  
Swallowed by the beauty and lost in inspiration

I love it, I can get so high on you  
Tell them they can meet me on the moon  
Pull me thru just like the best drugs, baby  
Felling like I'm not the only one  
Feeling like I'm plugged in to the sun  
You come on just like the best drugs, baby

I love it, I can get so high on you  
Tell them they can meet me on the moon  
Pull me thru just like the best drugs, baby  
Felling like I'm not the only one  
Feeling like I'm plugged in to the sun  
You come on just like the best drugs, baby
