Stagefright

Matt Nathanson

You're holding out on me, while I'm on fire
If you can't stand the heat, then you should try
Victim of my vices, you know you are
You skate on ice to paradise, stairway to the stars

Stagefright all night, won't you let go
All night stagefright, on with the show

You come on like a lady dressed to kill
Never thought you could be caught, but you will
A Little understanding, a little love
A headline act around the back, is what I'm thinkin' of

Stagefright all night, won't you let go
All night stagefright, on with the show
Stagefright all night, you're dream starts today
All night stagefright, you're only a heartbeat away

Stagefright all night, won't you let go
All night stagefright, on with the show
Stagefright all night, you're dream starts today
All night stagefright, you're only a heartbeat away
