

# Stagefright

**Matt Nathanson**

You're holding out on me, while I'm on fire  
If you can't stand the heat, then you should try  
Victim of my vices, you know you are  
You skate on ice to paradise, stairway to the stars

Stagefright all night, won't you let go  
All night stagefright, on with the show

You come on like a lady dressed to kill  
Never thought you could be caught, but you will  
A Little understanding, a little love  
A headline act around the back, is what I'm thinkin' of

Stagefright all night, won't you let go  
All night stagefright, on with the show  
Stagefright all night, you're dream starts today  
All night stagefright, you're only a heartbeat away

Stagefright all night, won't you let go  
All night stagefright, on with the show  
Stagefright all night, you're dream starts today  
All night stagefright, you're only a heartbeat away
