

Way Way Back

Matt Nathanson

Last flare from the lifeboat
Last air in my lungs
Right now even I know that you've got someone
Some people see the diamond
Some can only see the flaws
We made perfect little movies that no one ever saw

Didn't know that forever only meant forever till you found some
one better
Some day it's gonna hit you, see you'll it clear as crystal lik
e a photograph

No one else's gonna love you like that
No one else's gonna love you like that
I'll stay in your mind, you can always find me in the way way b
ack
No one else's gonna love you like that
Gonna love you like that
Gonna love you like that

I'm sure he's easier than I was
If you like that sort of thing
He looks better with his shirt off, yeah, but can he sing?
Winter sun's setting early and my shadow's getting long
Radio just wanna hurt me, puts you in every song

No one else's gonna love you like that
No one else's gonna love you like that
I seen you mine, you can always find me in the way way back
No one else's gonna love you like that
Gonna love you like that
Gonna love you like that

Didn't know that forever only meant forever till you found some
one better
Some day's gonna hit you see you crystal clear like a photograp
h

No, no one else's gonna love you like that
No, no one else's gonna love you like that
I'll stay in your mind, you can always find me in the way way b
ack
No one else's gonna love you like that
Gonna love you like that
Gonna love you like that
