

Ambition

Matt OX

I can see now
In the streets with the bricks, you get beat down
No competin' with me, you gon' cheat out
What you see on the scene, you don't speak 'bout
I'm with the geeks and we geeked out
I get the cheese and I keep count (Ayy McCoy)
(I get my work from the Narco)

Check the definition, read the description
Youngest legend livin', no competition
When I said it, I meant it
Need a medic, I'm trippin'
It get hectic, get twisted
I might get my ambitions

Dividends, digits, I get it and flip it
Finessin' the district, I'm settin' the vision
I bet he ain't with it, I'm gettin' the women
I said it implicit, they didn't listen
'Til I hit the chart, I let it begin
This is just the start, I'm on a mission
I'ma play my part, I'm 'bout my business
Supportin' from afar
Can't hang 'round the jakes
They don't have what it takes
Boy, please stay in your place
I'm with the demons, the saints
We be schemin' the safe
I stack my cards with an ace
Bringin' it out to the bank
They not feelin' the pain
You know I came from the paint
So I can't complain, I just stay in my lane
Vámonos, gotta go get on a plane
Dominos, got the dough, get to the cheese
All the dough I'ma throw, I made it rain
In the snow, out the cold, I made a breeze
