

COMPLEX

Matt OX

I see that it's all connected
What I need I manifested
With these seeds, I plant my blessings
I been seeing new perspectives
I know the meaning and I meant it
So in the past is where I left it
I get innovative, I don't rest
It get complicated and complex
Making payments, I invest
I done made it, you stuck in debt
Anticipating on what I do next
They wanna be famous, I wanna get checks

I ain't got no patience, nah, I ain't waiting
I ain't waiting on another man, I gotta chase it
What I'm saying they don't understand they gotta face it
I ain't playing, nah, I got a plan so I'm make it
Picking my decisions
You was living in a fiction 'til it got a lil' realistic
You'd be tripping, you'd be schitzing if you seen into my vision
I be with it, I don't fit in, got my run up with no limit
Made it up from the beginning
I done did it from the start, in the hood, we causing mischief
I done made it out the dark, in the hood, we never slipping
I can see you from afar in the hood when I was in it
I was living in the park, now we whipping in new cars
While I'm on the boulevard
I'ma take off like it's Mars and I'm shooting to the stars
Speaking fluent when I talk
I be doing what you cannot
I be moving it way too far
I'm recouping it with them knots
I been moving it, playing my part

I see that it's all connected
What I need I manifested
With these seeds, I plant my blessings
I been seeing new perspectives
I know the meaning and I meant it
So in the past is where I left it
I get innovative, I don't rest
It get complicated and complex
Making payments, I invest
I done made it, you stuck in debt
Anticipating on what I do next
They wanna be famous, I wanna get checks
