**Matt OX**

To infinity  
(Cenobite, you on)  
Woo (Woo)

Mystical mythical potions (Potions)  
Spiritual principle, stuck in a notion, emotion  
I'm flowin' and ghostin' (Ghostin')  
I'm devotin', not floatin'  
They hopin' I'm chokin'  
When I spoke it, it sound like I wrote it  
How I already know that you talkin' that bogus  
Hocus pocus, you know that I was chosen (Woo)  
Ain't had no pop, no dad (Woo)  
Down bad, I was on my ass (Woo)  
They trap on the ave, no cap (Woo)  
In the badlands, they stay with straps (Woo)  
Don't get it twisted, we stay with ballistics (Ballistics)  
Twitchin' and itchin' and twitchin'  
Causin' that mischief (Woo)  
Livin' and drippin' and pippin' and gettin' them Benjamins in  
I'm in that district  
No slippin', I'm trippin, I'm tippin', I'm hittin', I'm gettin' it in  
I got 'em big sick, I'm gettin' big chips  
We takin' big sips, I'm hittin' big licks  
Like I hit a kick flip, I'm takin' big risks  
It's super safe [?] advance, man  
I'm in a new coupe and a new mansion  
I'm with your lil' boo, she started dancin'  
I get the blue, blue, I get the bands and  
If she don't get nothin', she have a tantrum  
[?], drip from Ransom  
Stack it up faster, go get your bands up

Win or lose, pick or choose  
They got confused, they ain't have a clue  
Whole time we was on the move  
He gotta lose, they never knew  
That's why he ain't make it through  
Ain't that true? Ain't that true?  
Mixed the trues with the Lou'  
He didn't know, never knew  
I cannot relax  
[?] y'all mad, yeah  
We gon' make 'em dance  
They get sad, they get tragic  
He gonna get mad, but I'm gonna be glad  
I might just sit back, just relax and laugh  
No, no, no, I do not chat  
[?] talk to my hand  
Unless you talkin' 'bout some bands  
If it's not that then that's not Sans  
It get reckless  
I been restless  
And the checks that I'm spendin'  
Two-tone necklace, yes it is the wettest  
Don't talk to me crazy, don't talk to me crazy  
Your boyfriend hate me 'cause your girl wanna date me

Shawty got rabies, how are y'all dating?  
And y'all just said y'all had a baby?  
Psh, that's crazy, that's wild  
Oh my, look at that boy, just childish

Got a grown man in my mind  
And he don't know what I know  
I see through the signs  
Let it go, my mind  
Yeah, I don't lie  
It's myself I follow  
Just hit up a model  
She just popped that bottle  
All these racks, feel like I hit the lotto  
She just took her top off, so I had to lock my iPhone  
[?] eyes low  
I-I-I don't know  
Who are those? Those not my bros  
(Go, go)

Divinity stars in the dark  
Infinity sparks with the stars  
The friends with me feel my heart  
My enemy hear my roar (Cenobite, you on)  
Run for a door, or in a Porsche  
No remorse, use the force  
Pass the torch, yeah, of course  
Explicit and implicit  
Your chick said I'm too different  
And your chick said I'm exquisite  
Listen, listen, you don't get it  
I'm not sophisticated, I know I can't be hated  
Does that mean, kid, I made it?  
And he can't deal with the changes  
Rearrangin' the game (Game)  
Feel that pain, I'm insane ('Sane)  
Wait, I'm in the Wraith, you can't race  
You just gon' be chasin' my place and I ain't even playin' the game  
Y'all too silly, what you doin' really?  
You done killed me, guess you don't feel me  
Cold nights chilly, had to get a hoodie  
All my sneaks got muddy, no, it wasn't funny  
But I kept running and I started laughin' and shit got Jurassic  
Heard the opps cappin', head the cops blastin'  
And they got assassins and they got their masks  
Shawty fake like plastic, that is not lavish
