

Light It Up

Matt OX

Let it go, light it up
Lotta guns, let 'em off
Light it up, light it up, light it up
I get the flash with my lighter on
I can't be excited, oh no
I can't peep your blood, 'cause I see through this dub
And you think that you won
For you, that's you
Boo hoo, who's you? Never knew, that's true
That's true, that's true, that's true

Where my troops? Where my crew? With yo' boo
She gon' choose, she gon' flow 'cause she flew
Get it done, all I do, stay ten toes with the crew
Do the most, get the blue, do whatever you wanna do
Boom, skrrt off the scene and the engine [?]

Let it go, light it up
Lotta guns, let 'em off
Light it up, light it up, light it up
I get the flash with my lighter on
I can't be excited, oh no
I can't peep your blood, 'cause I see through this dub
And you think that you won
For you, that's you
Boo hoo, who's you? Never knew, that's true
That's true, that's true, that's true
