

RUNNA

Matt OX

Run up, I'm a runna, run away (hey)
I can see the Sun up in the rain (wait wait)
You don't wanna run up on the gang (gang)
You'll be getting dead without a bang (bang bang)

Run up with them Runnas
Stun up with them stunnas
We came out the gutter
I do it for my mother, and I do it from my brothers
We do it for another, we get through it for each other

I can't trust another man, y'all just do it for them bands
You won't do it for the 'Gram, you won't do it for your fans
But you'll do it for that advance
[?] I'm gon' go out back
It's getting to me, it's maliciously vicious, but I ain't gon' get mad (yeah)
I keep going too fast (fast)
I keep moving too fast (fast)
Yeah, I get caught up in the past
I keep coming back (back)

I'm dripping, I'm rocking the Raf
I'm ambitious, I'm back on my tap
Back to back
Back to the trap like, back to the trap like, back of the back of the pack
Stacking the racks like, stacking the racks like, stacking the racks like, stackity stackity stack
Stuck up in that habitat with the snakes up in the grass

Run up, I'm a runna, run away (hey)
I can see the Sun up in the rain (wait wait)
You don't wanna run up on the gang (gang)
You'll be getting dead without a bang (bang bang)

Run up with them runnas
Stun up with them stunnas
We came out the gutter
I do it for my mother, and I do it from my brothers
We do it for another, we get through it for each other

Yeah, they [?], but they never knew my name
They all do it for the fame, they gon' do it 'cause they fake
I gotta keep up my patience, I gotta go back and retrace it
Taking them steps, like I'm on the way (wait, wait)
I came in first place, sipped the champagne just to celebrate
What do you claim? We know that you fake
Hop in a Range Rover, I came in a Wraith
Let me elaborate, I don't wanna collaborate
I don't got no time to waste, I gotta go get some racks to make
