

too fast

Matt OX

Yahhhh

Hope I never text you

'Cause I know you won't text me back

And I only said I love you (only said I love you)

Guess I gave into love too fast

Spaceship hope I do not crash

Don't need a girl that's just on my back

Don't need a girl I just fell in love

Guess I'll never get attached

I'll never get attached

I'll never get attached

I'll never get attached

I - I - I - I - I fell in love too fast like Harden need a step back (a step back)

Down bad, I'm waiting for your text back

I didn't even get up in go and get your check strapped

That was my ex, need to go ahead and x that

All white beamer need to go ahead and race that

Going too fast we not even on a race track

I was too in love yeah you know that I hate that

Yeah you know that I hate

Yeah you know that I hate

But I still think about you like every day

I'll tell you I'm okay

But I still cry about it like every day

Yahhhh

Hope I never text you

'Cause I know you won't text me back

And I only said I love you (only said I love you)

Guess I gave into love too fast

Spaceship hope I do not crash

Don't need a girl that's just on my back

Don't need a girl I just fell in love

Guess I'll never get attached

I can't get attached to that

I can't get attached

That was your last chance for that

That was your last chance

You done did me down bad

Left me with the grass

Yeah

You done did me down bad

Yeah

I can't hang around that

I can never lack

Gotta bounce back

I get to my racks

Then I count that

I hit her with the facts and she feel attacked

Why you feel like that

She ain't feelin me

You ain't real like that

Lets keep it a bean

I'm on the field like that

You ain't in these streets
You running back
I'm reeling back
Up all the racks
I get from streams

Yahhhh
Hope I never text you
'Cause I know you won't text me back
And I only said I love you (only said I love you)
Guess I gave into love too fast
Spaceship hope I do not crash
Don't need a girl that's just on my back
Don't need a girl I just fell in love
Guess I'll never get attached
