

If You Live

Matt Pond PA

i fell running through the fields and you fell with me
our arms and legs were crossed under the grass's green
i don't want to get caught looking
but somehow i always do
your lower teeth stuck out the same way that mine do

we would run through crowds at fairs with no one
noticing
thousands and there's only one thing i could see

now i wish i knew truth if it was happening
look here comes the proof bigger than anything

cause if you live a love
live it like your last
because the time will come and the time will pass
if you live a love
live it like your last
live it like your last

your hands upon the wheel, you led me to ottawa
i looked at you, you looked back and i looked away
i was trying to prove there was something wrong
that was not that truth, it wasn't anything

cause if you live a love
live it like your last
because the time will come and the time will pass
if you live a love
live it like your last
live it like your last

if i catch you with a phone call
i'll be killing inhibition
i'll say everything i know i've never said before
like you breathing in the backseat
on a bed of metal brackets
your arms went straight to me as if they knew

if you live a love
live it like your last
live it like your last

i wish i could prove everybody wrong
i wish i'd never lose anybody
i wish i could prove everybody wrong
i wish i'd never lose anybody
