

# Bonnie & Clyde (Getaway)

Matt Simons

Long nights  
Years gone by  
Highlights of you and I

We will ride  
We'll be bulletproof  
One more time  
Nothing left to lose

I take all the money and make for the door  
So keep the car running and head for the shore  
I hope they're all ready  
It's time to get saved  
So keep your hands steady  
We'll make our getaway

Drive fast  
Make our move  
Don't look back  
Your aim is true

Long white lines  
Split the world in two  
On our side  
With nothing left to lose

I take all the money and make for the door  
So keep the car running and head for the shore  
I hope they're all ready  
It's time to get saved  
So keep your hands steady  
We'll make our getaway

I take all the money and make for the door  
So keep the car running and head for the shore  
I hope they're all ready  
It's time to get saved  
So keep your hands steady  
We'll make our getaway

Nobody said we were heroes  
Nobody said that we were heroes  
Nobody said we were heroes  
Nobody said that we were heroes  
Nobody said we were heroes  
Nobody said that we were heroes  
Nobody said we were heroes  
Nobody said that we were heroes

I take all the money and make for the door  
So keep the car running and head for the shore  
I hope they're all ready  
It's time to get saved  
So keep your hands steady  
We'll make our getaway

I take all the money and make for the door

So keep the car running and head for the shore  
I hope they're all ready  
It's time to get saved  
So keep your hands steady  
We'll make our getaway
