

Easy

Matt Simons

Can I shake my past
So much harder than it has to be
Now, when I look back
Such a typical disaster-piece
The future's looking bright
Now I got you dancing next to me
Cause we move so right
Got 'em looking at a masterpiece

I used to think the pain was love
But now I'm seeing that was dumb

It's easy, like the summer
Keeping it a hundred
Let me tell you something
Anywhere I'll follow
You lead me to the summit
Ooo you know I love it
Easy when we do what we do
So do what you do

All the ones gone by
I don't know who I was trying to be
(I was trying to be)
When I said that it was fire
Must have meant it masochistically (cause it burns)
I'm feeling more alive now
I got you standing next to me
Cause you shine so bright
Got 'em looking at a fantasy

I used to think the pain was love
But that's just so ridiculous

It's easy like the summer
Keeping it a hundred
Let me tell you something
Anywhere I'll follow
You lead me to the summit
Ooo you know I love it
Easy when we do what we do
So do what you do

Come on

It's easy, like the summer
Keeping it a hundred
Let me tell you something
Anywhere I'll follow
You lead me to the summit
Ooo you know I love it
Easy when we do what we do
So do what you do

So do what you do
So do what you do
So do what you do...
