

# One Cold Beer At A Time

Matt Stell

Like an Al Green record  
I'm caught in a real good groove  
Little slow down in my head  
Got a new step in my boots

Got some miles on me like this truck  
But we're running good as we ever was  
Yeah, the more I'm makin' it  
The more I've been takin' it

One cold beer at a time  
Tippin' it back and lettin' it flow  
Takin' the lows and ridin' the highs  
As it comes and as it goes

A little more sip than shoot  
A little more chill than makin' moves  
I'm getting by and taking life  
One cold beer at a time

As soon as I quit looking  
Some down home blue eyes came around  
It's still too soon to tell  
But it could be something worth bringing home about

I don't know where it's gonna go  
But I know we're gonna find out

One cold beer at a time  
Tippin' it back and lettin' it flow  
Takin' the lows and ridin' the highs  
As it comes and as it goes

A little more sip than shoot  
A little more chill than makin' moves  
I'm getting by and taking life  
One cold beer at a time

There's still times I'm an all-out hundred proofer  
But things sure go down smoother

One cold beer at a time  
Tippin' it back and lettin' it flow  
Takin' the lows and ridin' the highs  
As it comes and as it goes

A little more sip than shoot  
A little more chill than makin' moves  
I'm getting by and taking life  
One cold beer at a time

One cold beer at a time  
One cold beer at a time
