

## Best I Ever Had

Matt White

You're leaving things, and I won't love what you wanna say  
And I don't love and I need a friend  
And I don't love anybody then  
I'm all that you wanna hear  
Everytime you see my tear, on this stepilopoly  
I need some reciprocity

I know I tried my best to need you, satisfy your every need  
And I know I don't want to see my heart again  
Am I the, on my precious knees, I'm tellin things I've never se  
en  
And if I tried to get myself out of the blue, you're the best I  
ever had

And so he came around, and I don't wear our silent frown  
I don't wanna hear your politics, so I'll sit here and you'll t  
alk shit  
And I'm not even listening  
The tears are runnin, glistening  
Heaven don't wanna hear my plee, cause I can't give you what yo  
u need

I know I tried my best to need you, satisfy your every need  
And I know I don't want to see my heart again  
Am I the, on my precious knees, I'm tellin things I've never se  
en  
And if I tried to get myself out of the blue, you're the best I  
ever had
