

Every Way

Matt White

I know you're feeling so lonely
Come down to me with your crown
I want someone to hold onto
'Cause you're up and you're down
And you smile and you frown

I wanna love you every way, every way, every way
Gonna hold you every way, every way, every way
'Cause my body's so consumed
And I'm holding onto you
Gonna love you every way, every way you say

These wild times get me crazy
Oh baby don't act this way
You'll rise above of the noise [?]
You should let me stay

Gonna love you every way, every way, every way
Gonna touch you every way, every way, every way
'Cause my body's so consumed
And mind is overused
Gonna love you every way, every way you say
Every way, every way you say

And if you're needing some shelter
I know you're out on your own
I'll always listen in for ya
Our love won't be undone

Gonna love you every way, every way, every way
Gonna kiss you every way, every way, every way
'Cause my body's so consumed
And I'm holding onto you
Gonna love you every way, every way you say
Every way

Gonna love you every way, every way, every way
'Cause my body's so consumed
And I'm holding onto you
Gonna love you every way, every way you say
Every way, every way you say
