

Army of Lions

Matthew Good

Go on now come alive
nothing in here is true
nothing but the hole they've measured out for you
if you've tried to sing along but never known the tune
in your heart come realize
you've got an army of lions and all the claws they bring
got an army of lions to rule everything

Go on now come to life
got nothing left to lose
nothing but the hole punched clear and ever through
that never sings along
that's never been in tune
in your heart come realize
you've got an army of lions and all the claws they bring
got an army of lions to rule everything
