

Empty's Theme Park

Matthew Good

Used to steal real estate signs
Cookie keep them in her basement
Used to stay up all night
Chemistry set a replacement
Ya, I've seen that door
And I've walked through it both ways before

I live just around here
I sleep just around here
And I wake up every day
Where my feet hit the floor in exactly the same place

Tell me will I love?
And tell me will it be enough?
Or tell me will I stay
With my feet in exactly the same place?

Hold me like you'd never let me go
Bear it like you'd never let it show
Shine a light and so never let me go

Well I grew up just around here
And I took a few just around here
And I'd wake up every day
With poison in my head behind exactly the same face

Tell me will I dream?
And tell me will it be serene?
Or tell me will I stay
With my feet in exactly the same place?

Hold me like you'd never let me go
Bear it like you'd never let it show
Shine a light and so never let me go
Never let me go
