

Hey Hell Heaven

Matthew Good

It's old bearing disaster
Yeah but I've been faster
Since I would come around

You got all the exceptions
In a pile leaving all the corrections
Since I would come around

Its want ate everything
And I'd be soulless saved
When I would come around

Whole nights caught in a capture
So far gone a collapsed blur
When I would come around

Hey hell, heaven is a place that you go
Hey hell, heaven is a place that you go

Just so we got a little time on our hands
Just so we get a little time off, yeah

Well I wish I was over the fail spot pinned to my shoulders
Since I would come around

Maybe in some other life
There's a better feeling for feeling right
And I would come around

Hey hell, heaven is a place that you go
Hey hell, heaven is a place that you go
Hey hell, heaven is a place that you go
Hey hell, heaven is a place that you go

Just so we got a little time on our hands
Just so we get a little time off, yeah

Just so we got a little time on our hands
Just so we get a little time off, yeah
