

# My Life As A Circus Clown

Matthew Good

The lights go down, the knife man sleeps  
And I wonder where you are  
Trapped inside a burning mini  
And I wonder where you are

You never used a safety net  
I never thought that far ahead  
I wonder if you think of me  
While I wonder where you are

This time I lose but I know  
One day, I'll win  
One day, I'll win  
This time I lose but I know  
One day, I'll win  
One day, I'll win

The new girl does your show at eight  
And I wonder where you are  
The human cannon hesitates

And I wonder where you are

If you can make me disappear a little  
Can you make me disappear a lot?  
I wonder if you think of me  
Well I wonder if you're not

This time I lose but I know  
One day, I'll win  
One day, I'll win  
This time I lose but I know  
One day, I'll win  
One day, I'll win

I will  
Burn it down, now  
Burn it down, and  
Burn it down

The lights go down  
The knife man dreams  
Of missing  
Of missing  
Of missing
