

## Settle Down

Matthew Mayfield

The hurriane is on its way  
The cold is in your eyes  
Something you said  
Sticks out in my head  
But I can't tell you why  
I can't kiss your lips a little longer  
I always feel your fire in my bones  
If you sense my heart is sweet on you  
It's to settle you down  
Settle you down  
It's the calm and the fear  
It's the blind of years  
It's the push and the pull gone bad  
Something stronger keeps me here longer  
But I still hear you cry  
And I can't kiss your lips a little longer  
I always feel your fire in my bones  
And if you sense my heart is sweet on you  
It's to settle you down  
Settle you down  
And I can feel your song  
Even though you're gone  
If it's right or wrong, I'm not sure  
And this is flee or fight  
This is sleepless nights  
This is do or die or let go  
And I can feel your song  
Even though you're gone  
If it's right or wrong, I'm not sure  
And this is flee or fight  
This is sleepless nights  
This is do or die or let go  
I can't kiss you lips a little longer  
I always feel your fire in my bones  
And if you sense my heart is sweet on you  
It's to settle you down  
Settle you down  
Settle you down  
Settle you down
