

# Be Gone

Matthew Mole

You sit me down and show me the sky  
I see the doorway in the back of my mind  
You tell me that you see that I'm alive  
And every part of me is feeling undermined  
I'm done now

When you hear this song  
I'll never see you again  
Now you be gone  
You were never my friend  
I knew your harm  
I'll never see you again  
Now you be gone  
I'm never broken when I'm down

Now listen to the words that I say  
And I refuse to let you get in my way  
And I tell you that I see that you're a liar  
And every part of me will leave you here to die  
You're done now

When you hear this song  
I'll never see you again  
Now you be gone  
You were never my friend  
I knew your harm  
I'll never see you again  
Now you be gone  
I'm never broken when I'm down

Now listen, let me tell you the truth  
You can only try to pull me down  
And you tell me that you see that I'm alive  
Every part of me is feeling undermined now  
And I tell you that I see that you're a liar  
And every part of me will leave you here to die now

When you hear this song  
I'll never see you again  
Now you be gone  
You were never my friend  
I knew your harm  
I'll never see you again  
Now you be gone  
I'm never broken when I'm down

When you hear this song  
I'll never see you again  
Now you be gone  
You were never my friend  
I knew your harm  
I'll never see you again  
Now you be gone  
I'm never broken when I'm down

I'm never broken when I'm down
