

# Goodbye

Matthew Mole

When I say goodbye  
To every word you've said  
I want to clear my mind  
But you're in my head

And you know I'm scared  
Of the world around  
You want to take me there  
You want to let me down

We fall, we fight  
We take our time  
We own the night  
We say goodbye  
(Goodbye)

And the only thing  
Is the love I've found  
With every word I sing  
I'm gonna take you down

And oh my heart will never let you in  
All my love will never let you win  
And on this night, I will win this fight

We fall, we fight  
We take our time  
We own the night  
We say goodbye

We fall, we fight  
We take our time  
We own the night  
We say goodbye  
Goodbye

Hit me with your best shot  
Put me to the test  
I'm more than you see  
You leave me with a mess  
And let me do the rest  
I know I'll be free  
From you  
We're through  
It's you  
We're through

Hit me with your best shot  
Put me to the test  
I'm more than you see  
You leave me with a mess  
And let me do the rest  
I know I'll be free  
From you  
We're through  
Made new  
Can you see

We fall, we fight  
We take our time  
We own the night  
We say goodbye

We fall, we fight  
We take our time  
We own the night  
We say goodbye  
Goodbye
