

Jess' Song

Matthew Mole

You and I we'd have our fun
You'd speak your heart and I'd fall in love
Look at us now, it's all come to this
Our Father's spoken and our dreams weren't missed
We'll be just fine
We'll be alright
We'll be just fine
We'll be alright

My lovely bride, you're part of me
I know that you'll make me the man God sees
I give my life and I'll always be
I'll be there for you and for all you need

Together we'll take on this world we see

We'll follow love

You and I, we'll never fall apart
We are strong, we are three in one
I'll tell you this now, that I commit myself
This kind of love is our kind of wealth
We'll be just fine
We'll be alright

My lovely bride, you're part of me
I know that you'll make me the man God sees
I give my life and I'll always be
I'll be there for you and for all you need

Together we'll take on this world we see

We'll follow love
