

Keep It Together

Matthew Mole

I'd pray we'd be together
You'd say I'd see the light
One day we'll be forever
For life, for life
I've heard you wrote a letter
And I've heard you paid the price
But I don't seem any better
Tonight, tonight, tonight

Oh oh oh...

We see the weather
How do we never see the sweet sunshine
Just keep it together now
'Cause you look a little bit surprised
Please say you'll be back when the morning comes
I see the hope in your eyes
Just keep it together for the night
We'll keep it up all night

Oh oh oh...

I see the things, hear the words that you don't say
I think that I try to do it all my own way
I'll take a hit, I'll take a fall but I won't change
I sit back and let the world make me her slave

But I come alive, I come alive
I'll be the bones, you'll set the fire
I'll stay the night, I'll take a bite
I'll see the light in the morning

We see the weather
How do we never see the sweet sunshine
Just keep it together now
Because you look a little bit surprised
Please say you'll be back when the morning comes
I see the hope in your eyes
Just keep it together for the night

Let your guard down
Set your heart on fire
Your fear will die with you tonight
Let me see you
Let me be your eyes
I'll light the way for you to go

Oh oh oh...

We see the weather
How do we never see the sweet sunshine
Just keep it together now
Because you look a little bit surprised
Please say you'll be back when the morning comes
I see the hope in your eyes
Just keep it together for the night

Oh oh oh...
