

Let Me

Matthew Mole

My always, forever, the light in the dark
And I found it, the treasure, your beautiful heart
And will every piece of mine
I love you more than life

You see it, you show it, the look in your eyes
Says you called it, you know it, the truth in my lies
Because you know me better now
Than I think I know myself

Let me love you
All I want from you
We are stronger
Hold on for longer

Let me love you
All I want from you
We are stronger
Hold on for longer

Take me back to when we sat alone in the garden
The dreams you had, you told me that it won't be a problem
Remember how it felt
To love and never doubt

I wish that I could tell you why it doesn't get easy
To give away the part that makes me love you completely
But we have never lost
Because we will never stop

Let me love you
All I want from you
We are stronger
Hold on for longer

Let me love you
All I want from you
We are stronger
Hold on for longer

Let me love, let me love, let me love you
Let me love, let me love, let me love you
Let me love, let me love, let me love you
Let me love, let me love, let me love you

You and I, we're part of something
Never look behind, it's you and I forever
You and I, we're part of something
Never look behind, it's you and I forever

You and I, we're part of something
Never look behind, it's you and I forever
You and I, we're part of something
Never look behind, it's you and I forever

Let me love you
All I want from you

We are stronger
Hold on for longer

Let me love you
All I want from you
We are stronger
Hold on for longer
