

# Turtle Dove

Matthew Mole

One day I'll be fine  
Then you'll say otherwise  
And then I realise you're in my head

I feel overwhelmed when you steal  
What I've found in every good thing going on instead  
And I feel just like the world is going to end

I'm in love I think you need to know  
I'm in love I think I'll let you go  
Oh my soul  
I never knew that I could be the one for you  
I'm in love I think you need to go

Tell me how I always believe  
Everything you say when either way you'll never win

I know that I'm never alone  
Every time I feel just like the world is going to end

One day I'll say goodbye to you  
One day we'll see the light  
I'll show you

I'm in love I think you need to know  
I'm in love I think I'll let you go  
Oh my soul  
I never knew that I could be the one for you  
I'm in love I think you need to go

Oooh, let me know your lies  
We're through, get me home in time  
It's you, let me show you I won't break  
I'll be done with you today

I say something that you won't take  
Love won't let you keep me on my own  
I've found my way  
I think it's time to see another day

I'm in love I think you need to know  
I'm in love I think I'll let you go  
Oh my soul  
I never knew that I could be the one for you  
I'm in love I think you need to go

I saw turtle doves  
But one stood out above them all  
And I feel hope from what you sent  
I feel just like I've found my new best friend
