

Wake Up

Matthew Mole

Tell me when you're falling
Tell me when you're upside down
All you want to know
When everything is inside out

I know where you need to go
I want to show you how
All you need to know
Is where you need to be right now

I'll be calling
You'll be falling
Wake up, it's morning
Tell me are you ever gonna love me for it

I'll be calling
You'll be falling
Wake up, it's morning
Tell me are you ever gonna love me for it

I know what you dream
And everything your heart desires
Listen to the words I say
And I will be your light

I know where you plan to go
I want to show you mine
All you need to know
Is where you need to be this time

I'll be calling
You'll be falling
Wake up, it's morning
Tell me are you ever gonna love me for it

I'll be calling
You'll be falling
Wake up, it's morning
Tell me why you never wanna love me for it

You tell me every day you want to see another way
But I'll be there and I'll be holding your hand
You tell me every day you want to see another way
But I'll be there there and I will show you my plan
You tell me every day you want to see another way
But I'll be there and I'll be holding your hand
You tell me every day you want to see another way
But I'll be there and I will show you my plan
Cause all want for you is close
Awake and see the wait is over

I'll be calling
You'll be falling
Wake up, it's morning

I'll be calling
You'll be falling

Wake up, it's morning
Tell me are you ever gonna love me for it

Tell me are you ever gonna love me for it
Tell me are you ever gonna love me for it
