

When I See an Elephant Fly

Matthew Morrison

I saw a peanut stand, heard a rubber band
I saw a needle that winked its eye
But I think I've seen about everything
When I see an elephant fly
I said, when I see an elephant fly

I saw a front porch swing, heard a diamond ring
I saw a polka-dot railroad tie
When I think I've seen about everything
When I see an elephant fly

I saw a clothes horse rear up and buck
And they tell me that a man made a vegetable truck
I didn't see that, I only heard
But just to be sociable, I'll take your word

I heard a fireside chat, I saw a baseball bat
And I just laughed till I thought I'd die
But I think I've seen about everything
When I see an elephant fly
Say when I see an elephant fly

When I see an elephant fly

When I see an elephant fly
When I see an elephant fly
When I see an elephant fly
When I see an elephant fly

I saw a clothes horse rear up and buck
And they tell me that a man made a vegetable truck
Well I didn't see that, I only heard
But just to be sociable, I'll take your word

I heard a fireside chat, I saw a baseball bat
And I just laughed till I thought I'd die
But I think I've seen about everything
When I see an elephant fly
Yes I think I've seen about everything
When I see an elephant fly

When I see an elephant fly
When I see an elephant fly
When I see an elephant fly
When I see an elephant fly
