

Baby Blue

Matthew Parker

Sweater weather
Hold my hand and take all of the pain away
I thank God every second that we're together
Somehow, when I'm with you, everything's okay
For once

You are my bright light
In a dark night
You'll be shining until we die
Let's find a place where
There's enough air
To breath again

I wanna run away with you
Somewhere that the skies are baby blue
You look so pretty swimming in the bay
And you always make me smile
That's what you do
I wanna run away
I wanna run away with you
I wanna run away with you
Somewhere that the skies are baby blue
You look so pretty swimming in the bay
And you always make me smile
That's what you do
I wanna run away

Tell me something
If I were a stranger, would I catch your eye?
I know you'd be catching mine
All or nothing
I was never worried over you and I
No, no

You are my bright light
In a dark night
You'll be shining until we die
I'll take you somewhere
There's enough air
To breath again
Oh

I wanna run away with you
Somewhere that the skies are baby blue
You look so pretty swimming in the bay
And you always make me smile
That's what you do
I wanna run away
I wanna run away with you
I wanna run away with you
Somewhere that the skies are baby blue
You look so pretty swimming in the bay
And you always make me smile
That's what you do
I wanna run away
