

Bird's Eye View

Matthew Parker

Caught a glimpse, and I realized
I've been so nearsighted
So much that I can't see
Stuck here in a daydream
Watchin' everything pass me by

I need a bigger point of view
Some clarity is overdue
'Cause some things I just can't see through (ohh)

I'm fallin' off the edge of nowhere
I just wanna go where
I can see the world so clear
Tell me everything I'm missin'
I don't wanna miss it
Show me what you see up here, oh-oh
'Cause I've been deep over my head
You give me peace when
I'm fallin' off the edge of nowhere
I just wanna go where
I can see the world like you
Bird's eye view

Like I'm lost in a hailstorm
I forget what I'm fightin' for
Blurry turned to blindness
Now I'm realizin'
Up there, you can see so much more

I need a bigger point of view
Some clarity is overdue
So show me where to rendezvous, ooh

I'm fallin' off the edge of nowhere
I just wanna go where
I can see the world so clear
Tell me everything I'm missin'
I don't wanna miss it
Show me what you see up here, oh-oh
'Cause I've been deep over my head
You give me peace when
I'm fallin' off the edge of nowhere
I just wanna go where
I can see the world like you
Bird's eye view
Bird's eye view (mmm)

So change my direction
A whole new perspective
Till my frame of reference is you

I'm fallin' off the edge of nowhere
I just wanna go where
I can see the world so clear
Tell me everything I'm missin'
I don't wanna miss it
Show me what you see up here, oh-oh (show me what you see up here)

'Cause I've been deep over my head (deep over my head)
You give me peace when
I'm fallin' off the edge of nowhere
I just wanna go where
I can see the world like you
Bird's eye view

I'm fallin' off the edge of nowhere
I just wanna go where
I can see the world like you
Bird's eye view
